CIAM can't restart

Issue: CIAM server has no response.

```
CIAM-ali1:~/ciam # ./ciam-service-plain -mode=start -config=config_enc.env -dev -
secret=MM5dN+FS37eu+zRSAbQWtcXtJjQv2NlYJICT7gqLiaQ=
CIAM-ali1:~/ciam # ./ciam-service-plain -mode=start -config=config_enc.env -dev
CIAM-ali1:~/ciam # ./ciam-service-plain -mode=start
```

Fix: remove the "db" and "logs", then generate a new secret

```
CIAM-ali1:~/ciam # ll
